

Superstore Sales Performance Dashboard

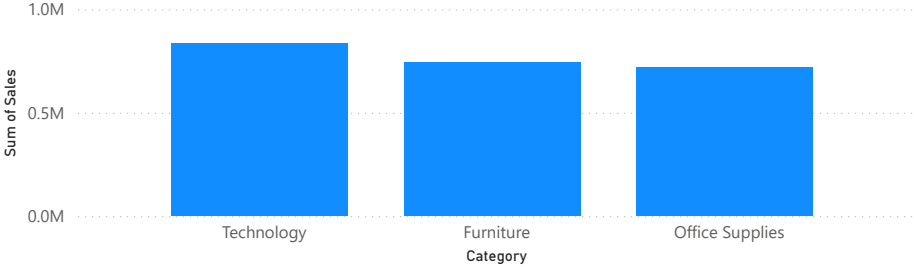

Sales Trend Over Time

Sales have increased steadily over time, indicating consistent business growth and higher customer demand.

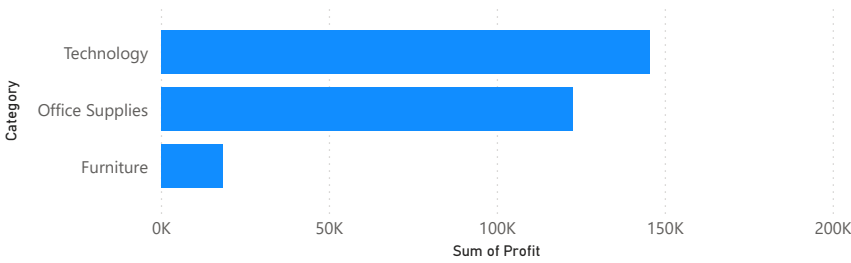

Sales by Category

Technology generates the highest sales among all categories, making it the key revenue contributor.

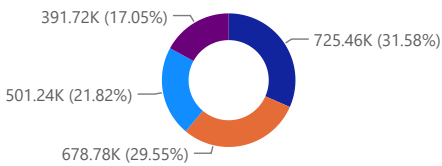

Profit by Category

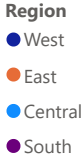

Technology also contributes the highest profit, while Furniture shows lower profitability.

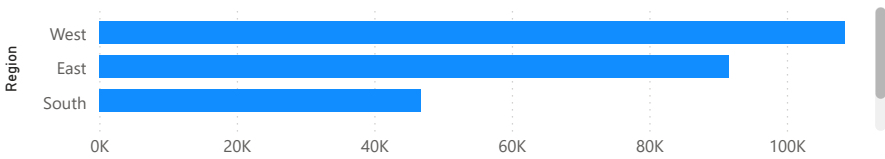

Sales by Region

The Consumer segment contributes the largest share of total sales.

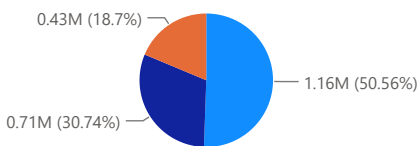

Profit by Region

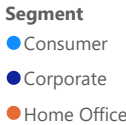

The West region generates the highest profit among all regions.

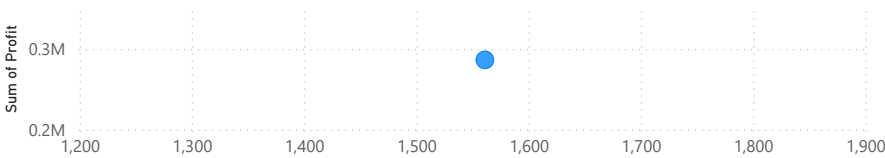

Sales by Segment

The Consumer segment contributes the largest share of total sales.

Profit vs Discount

Higher discounts often reduce profitability, indicating that discount strategies should be reviewed.

Executive Summary

Key Findings

1. Total Sales exceeded \$2.3 million.
2. Technology is the highest-performing category.
3. West region generates the highest profit.
4. Consumer segment contributes the largest share of sales.
5. High discounts negatively affect profitability.
6. Some products/sub-categories generate losses and need review.

Recommendations

- Focus marketing efforts on Technology products.
- Reduce excessive discounting.
- Improve performance of low-profit categories.
- Expand sales strategies in profitable regions.
